ABOUT US

ABOUT US

AJA is a comprehensive and experienced practice focused on the development of creative and appropriate solutions to a broad range of design opportunities in urban design, architecture and building interiors. AJA employs innovation and technology to create sustainable, comfortable environments for clients seeking high quality outcomes.

Established in 1988, AJA has developed a reputation for progressive contemporary design for government, institutional and private developments, with attention to client expectations at all stages of a project.

With strong project management and communication skills, AJA has a depth of experience in leading multi-disciplinary teams towards intelligent, pragmatic and environmentally responsive solutions.

THE AJA TEAM

Jon Johannsen, Director

Jon is the founding principal of AJA, with recognised skills and qualifications in urban design, architecture and project management achieved over more than 30 years.

Andrew Pell, Associate

For more than 10 years Andrew has contributed his project management and IT skills to achieve high quality results.

Yvette Olsen, Associate

Yvette is in her 7th year with the firm. Her projects are a success due to her communication skills and her pursuit of design excellence.
